SIP GENERATORS

2 YEAR STANDARD SILVER WARRANTY

ITEM NO: 25133

SIP MEDUSA® T3000W PETROL GENERATOR

- 212cc EURO V 4-stroke air-cooled petrol engine
- 3000w peak and 2700w continuous rated outputs
- 1x 230v (16A), 1x 110v (16A) and 1x 12v DC outputs
- AVR delivers stable and non-fluctuating power
- Low oil pressure alert system protects engine
- Heavy-duty framed design for added durability

OFFER PRICE

£299.99

ITEM NO: 25153

SIP MEDUSA® T5500 SILENCED DIESEL GENERATOR

- Peak output 5.5kVA / 5.5kW, continuous output 5kVA / 5kW
- 1x 230v (24A / 5kW) and 1x 110v (30A / 3.5kW) output sockets
- Digital display indicates output generator and overall runtime
- Heavy-duty silenced cabinet with quality powder-coated finish
- Rough terrain wheels for mobility

OFFER PRICE

£1,499.99

5YR LEASE £7.96pw

UNIVERSAL MAGNETIC REMOULDABLE FUNNEL

The funnel is designed to prevent spillage and reduce clean-up time when working with oils, coolant, and other fluids. It can be folded, bent and shaped as needed to direct flow around awkward components such as subframes, anti-roll bars and undertrays.

Two integrated magnets along the top edge allow the funnel to attach securely to any magnetic surface on the vehicle. For use on non-magnetic areas such as plastic or aluminium parts, the funnel includes cable tie slots for optional fastening, ensuring a stable and hands-free setup in virtually any location.

Features:

- Flexible and shapeable design for precision fluid control
- Integrated magnets for secure attachment to metal surfaces
- Cable tie compatibility for use on plastic or aluminium parts
- Helps avoid fluid contact with components during draining
- Minimises mess and clean-up time
- Temperature resistant up to 200°C
- Dimensions: 370 x 168 mm

£49.80
Part No: 00040297

HIGH OUTPUT PNEUMATIC VIBRATION HAMMER SET WITH 4 ATTACHMENTS

Designed to free seized components such as suspension bolts, bushes and injector clamp bolts, this high-performance tool offers a fast, controlled solution for stubborn fixings. The variable trigger allows the user to apply just the right amount of vibration force depending on the size and location of the seized part, helping to minimise damage and save valuable time.

With the included socket and spanner attachment, simultaneous vibration and twist force can be applied, effectively breaking down corrosion around threads to release the bolt with reduced risk of breakage. A wide range of additional attachments is available separately.

Features:

- Timesaving and reduces the risk of damage
- Variable trigger for precise control
- Delivers powerful vibration force
- Supplied with 4 attachments and carry case
- Compatible with a wide selection of optional attachments
- Ideal for removing easily broken bolts

£329.00
Part No: 80257050

8PC IMPACT SOCKET & HANDLE SET FOR USE WITH VIBRO GUN 80257050

Specially engineered for use with the Vibro Gun 80257050, this impact socket set is designed to facilitate the efficient removal of seized nuts and bolts through a combination of vibration and controlled impact.

Features:

- Ideal for loosening rusted or corroded fasteners without excessive force
- Features a turning handle that allows for precise, manual application of torque
- Reduces the risk of shearing or damage often associated with conventional impact tools
- Enhances technician control during stubborn bolt extraction tasks
- Robust construction ensures long service life in demanding workshop environments

£117.70
Part No: 80257065

6 PIECE STRAIGHT PUNCH SET FOR VIBRATION GUN / AIR HAMMERS

6 Piece straight punch set designed for use with our High Output Vibration Gun 80257050. Ideal for removing seized suspension components, studs and mounting pins/bolts etc.

Features:

- Available sizes: 5.2 mm, 6.5 mm, 6.9 mm, 7.7 mm, 9.3 mm, and 12.7 mm
- Shank diameter: 10 mm (round)
- Overall length: 177 mm

£53.80
Part No: 80257070

SUSPENSION ARM LEVER TOOL – COMPLETE WITH RATCHETING HANDLE (UNIVERSAL)

Designed for safe and efficient one-person use, this universal suspension arm lever tool allows technicians to quickly pull down or reposition lower suspension arms during repair and maintenance work. It removes the need for awkward manual levering and helps reduce the risk of damage to surrounding components.

The tool is suspended beneath the vehicle using a durable hook and chain system. Once positioned, the integrated ratcheting handle allows the suspension arm to be gradually lowered or raised in a controlled manner. This controlled movement greatly simplifies both disassembly and reassembly during suspension service work.

By allowing one technician to safely control the suspension arm, the tool improves efficiency in the workshop and eliminates the need for pry bars or additional assistance. The ratcheting mechanism provides smooth operation and precise control, helping to maintain correct positioning throughout the repair process.

Ideal for use when removing or refitting suspension components such as ball joints, wishbones and control arms, this tool ensures accurate alignment while reducing strain on the technician. Engineered for professional workshops, it provides a safer and more controlled solution for suspension servicing tasks.

£229.00
Part No: 62016715

UNIVERSAL UNDER VEHICLE ENGINE & GEARBOX SUPPORT

This versatile support beam is designed to stabilise the engine or gearbox from beneath the vehicle using a secure hook and strap system. It provides a stable support point during major mechanical work, helping technicians safely hold components in position while repairs are carried out.

A front-mounted scissor jack allows precise and controlled height adjustment, enabling the technician to raise or lower the supported component as required. At the rear, adjustable stabilising legs can be set for both height and width, allowing the beam to adapt to a wide range of vehicle layouts and workshop situations.

The design allows the vehicle to be raised or lowered on a lift while the support beam remains in place, maintaining full accessibility during

tasks such as gearbox removal, engine mounting work or cambelt replacement. This makes it a practical one-person solution for supporting drivetrain components safely and efficiently.

If the vehicle subframe needs to be removed, the unit can also be suspended using support beam 61135905 (sold separately), providing additional flexibility for more complex repair operations. The universal design fits most vehicle types and is engineered for professional workshop use.

Specifications:

- Max. carrying capacity: 250 kg
- Length: 1050 mm
- Height: 100 mm
- Max. lifting height (scissor jack): 260 mm
- Weight: 10 kg

£427.50

CLIP AND TRIM LEVER SET POLISHED STEEL 5 PIECE

This 5-piece clip and trim lever set is made from durable steel with a polished chrome finish to minimise the risk of marking or damaging plastic trims. Designed for lifting and removing clips, switches and similar fittings, the set includes a range of lever shapes with different angles and jaw openings for versatile use. Each tool features a rubberised handle for a secure, comfortable grip, and the complete set is supplied in a fitted foam tray for organised storage.

Features:

- Steel construction with polished and chromed finish
- Prevents damage to plastic trims
- Variety of lever shapes and jaw openings for different applications
- Rubberised handles for comfort and control
- Supplied in a fitted foam storage tray

£99.00
Part No: 65452500

XL TRIM CLIP LEVER SET 3 PCS

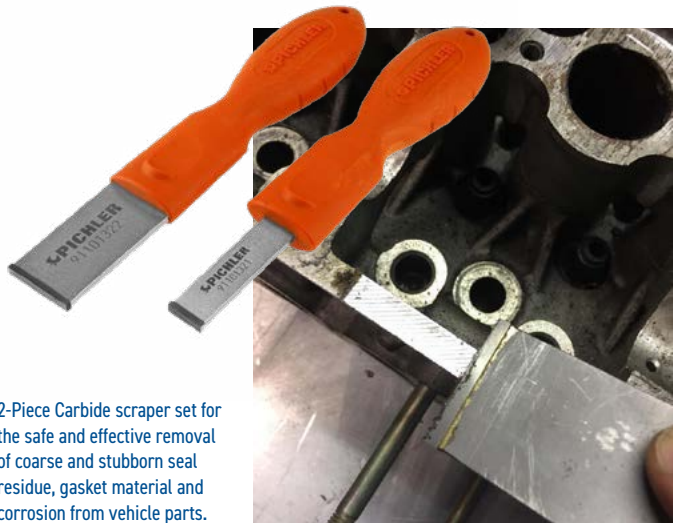

Extra-long clip lever set designed for efficient disassembly of all common plastic clips, rivets, and similar fasteners. Ideal for use across automotive, industrial, and workshop applications. Suitable for all standard plastic clips and rivets. Rubberised handle for secure, non-slip grip with optimised tool geometry for easy access and leverage. Ideal for difficult to reach clips e.g. under wheel arches and around engine bays.

Includes Tools:

- 65452320: S-shaped clip lifter – 375 × 22 mm, opening Ø 11 mm
- 65452322: S-shaped clip lifter – 250 × 22 mm, opening Ø 11 mm
- 65452321: Clip lifter – 250 × 15 mm, opening Ø 5 mm

£89.00
Part No: 65452300

CARBIDE SCRAPER SET 2 PCS

2-Piece Carbide scraper set for the safe and effective removal of coarse and stubborn seal residue, gasket material and corrosion from vehicle parts.

Each carbide blade has 4 scraping edges and the ergonomic handle has been designed to allow the user exert appropriate force on the blade when pushing and pulling.

Suitable for the removal of gasket and sealant residues, carbon build-up, rust and corrosion.

£59.50
Part No: 91101320

MILLING AND CLEANING TOOL FOR TYRE VALVE SEALING SEATS IN ALLOY RIMS

Designed for the targeted restoration of tyre valve sealing seats in alloy wheels affected by salt corrosion, oxidation, or lacquer degradation. Effectively removes corrosion residues and flaking clear coat that can cause air leakage due to uneven valve seating. Enables a sequential process: initial cleaning and deburring, followed by levelling of the seat using the included grinding and polishing pins.

Includes two 2-stage grinding and polishing pins for reworking the valve seat surface, and three actuating tools of varying lengths to accommodate different rim geometries. Compatible with all common valve types used in alloy wheels: rubber valves, threaded steel valves, and TPMS valves.

£119.00
Part No: 12155000

MINI AIR NEEDLE SCALER

Compact and efficient, this Mini Air Needle Scaler is designed for precise surface preparation in tight areas. Equipped with 13 fine 1.5mm needles and an integrated air regulator, it delivers controlled performance for demanding cleaning tasks. Ideal for removing rust, corrosion, and stubborn debris from brake carriers, wheel bearing housings, ABS mounts, and other metal surfaces, it's a versatile addition to any workshop.

- 13 x 1.5mm needles for fine, detailed work.
- Integrated air regulator for consistent output.
- Compact size, 235mm long x 25mm diameter.
- Lightweight construction for ease of use in confined spaces.
- Replacement needle sets available (Part No. 90444110).

Specifications:

- Speed: 3000 blows/min
- Air inlet: 1/4"
- Air consumption: 1.0 l/min
- Working pressure: 6.2 bar
- Weight: 0.5kg

£164.50
Part No: 90444100

FLEXI ANGLE AIR DRILL

Designed for precision drilling in tight, awkward spaces where standard drills can't reach—perfect for broken bolt removal and fine control tasks.

Features:

- 120° adjustable handle for improved manoeuvrability
- Infinitely variable trigger for speed precision
- 3-stage rotary speed control
- Compact 1-10mm drill chuck

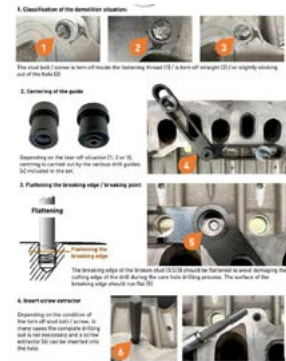

Specifications:

- Speed levels: 1680 / 2400 / 3160 rpm
- Power: 0.45 PS
- Noise: 83 dB(A)
- Air consumption: 90.6 l/min
- Length: 210 mm
- Pressure: 6.2 bar
- Inlet: 3/8"
- Weight: 1.03 kg

£188.80
Part No: 82004025

UNIVERSAL DRILLING GUIDE SET M6-M10 WITH MILLING END CUTTER SET

Designed for precise and controlled removal of broken studs or bolts with M6-M10 thread sizes. The set enables efficient stud extraction or complete removal when extraction is not possible. Ideal for use in engine blocks, cylinder heads, manifolds, and other threaded housings.

Step-by-Step Application:

Drill a centred pilot hole into the broken stud using the included HARDOX drills.

Insert a stud extractor to attempt removal.

If seized or damaged beyond extraction, drill out the thread completely and re-tap if required.

Included HARDOX HSS Co5 Drills:

Ø 3.0 mm, Ø 4.5 mm, Ø 6.4 mm.

Special 135° cutting edge and flat spiral geometry.

Coated for reduced wear and extended tool life (up to 2x longer than standard coatings).

Suitable for hard steels, oxidised fasteners, and seized components.

Carbide Head-Cutter (40122005):

Ø 4.8 x 50 mm, Ø 6.0 x 50 mm, Ø 6.0 x 105 mm.

Designed to level uneven or fractured bolt surfaces before drilling.

Prevents drill walking and misalignment.

High-strength carbide body for long service life and clean cuts.

Key Advantages

- Safe removal method minimising damage to surrounding material.
- Covers common automotive and industrial fastener sizes.
- Effective on heavily corroded or sheared bolts.
- Suitable for workshop and mobile repair environments.

£479.00
Part No: 40122510

HD VIDEOSCOPE RECORDER WITH 3.9 MM CAMERA AND 2 WAY ±180° MOVEMENT

HD videoscope with 3.9 mm camera and 2-way ±180° articulation, designed for visual inspection work in tight and restricted areas. Its high-resolution camera, flexible probe control and robust IP67 probe design give clear images even in confined spaces. Using the side dial, the camera head can be moved through a 180° arc, allowing clear views of pistons, valves and internal components to help identify wear or damage.

The 1 metre probe length offers good reach, and the 20-50 mm focus range provides sharp detail to check for cracks and surface condition. A 5-inch IPS display shows the image in HD quality, supported by a 1/9" CMOS sensor and six adjustable LEDs for proper illumination. The unit records still images or video to a Micro-SD card and is powered by a long-lasting 3.7 V, 5000 mAh Li-Ion battery for cable free operation during inspections.

BATTERY SUPPORT UNITS

BATTERY SUPPORT 30A FREE MAGNETIC MOUNTING PACK

GYSFLASH 30.12 PL
ref U74488

- 30A battery support unit
- Suitable for all 12V lead-acid & lithium batteries
- Charges all types of batteries safely
- Recovers deeply discharged batteries (SOS Recovery)
- UVP Wake up function to reactivate a battery following a deep discharge
- Show room support
- **Support for light duty diagnostics / Key on engine off work**

List Price £300.00

SPECIAL OFFER PRICE £199.00

BATTERY SUPPORT 100A COMES WITH A FREE OF CHARGE STOP/START BATTERY TESTER

GYSFLASH 100 FV + DBT500
ref U29001

- Advanced 100A battery support unit
- Suitable for all 12V lead-acid & lithium batteries
- Charging and battery support for key on, engine off work
- Multi-step charging curves
- Advanced protection
- **Perfect for diagnostic support on medium to large vehicles**

List Price £ 943.00

SPECIAL OFFER PRICE £699.00

BATTERY SUPPORT 50A

GYSFLASH 50.12 FV

ref 026056

Advanced 50A battery support unit

- Suitable for all 12V lead-acid & lithium batteries
- Supports diagnostic power requirements up to 50 A.
- Unattended charging of 12 V batteries from 10 to 600 Ah.
- Battery change mode
- Preserves battery health for showroom vehicles in dealerships.
- Power Supply mode for a stable power - adjustable voltage and current.
- **Perfect for ADAS calibrations**

List Price £708.00

SPECIAL OFFER PRICE £575.00

BATTERY SUPPORT 120A TROLLEY BUNDLE

GYSFLASH 121.12 CNT FV

ref U24600

Powerful, connected 120A battery support unit

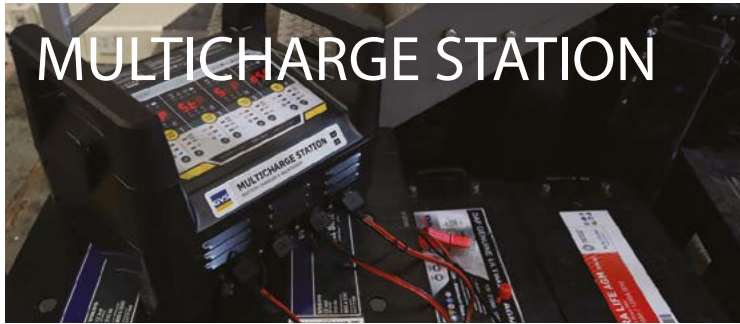

- Suitable for all 12V lead-acid & lithium batteries
- Connected technology for updates and traceability
- Safe for advanced diagnostic applications
- Supplied with 5m cables and XL trolley
- **Ideal for professional diagnostic support on all 12V vehicles**

DRAPER TOOLS

Trolley Jack and Axle Stand Kit (3 Tonne)

Trolley jack with twin-piston quick lift, rubber saddle pad, EVA foam bumper, and axle stands with ratchet action and adjustable saddle.

- Heavy-duty trolley jack with powerful twin-piston quick-lift
- Large saddle with integrated rubber pad for vehicle protection
- Two-piece handle with EVA foam bumper to prevent panel damage
- Includes axle stands with secure ratchet action
- Height-adjustable saddle for added versatility and support

£149.95

Stock Code. 07290

Draper Expert Professional Low Profile Garage Trolley Jack, 4 Tonne

Low-entry trolley jack with twin piston pump, 515mm lift, EVA foam handle, rubber saddle pad, safety valve, and two-piece handle.

- 107–515mm lifting range
- Twin piston pump reaches max height in 6.5 pumps
- Low-profile design for reduced clearance vehicles
- EVA foam and knurled handle for protection and grip
- Rubber saddle pad protects vehicle underside
- Safety valve and rear swivelling castors for safe, smooth operation

£199.95

Stock Code. 24276

Engine Crane, 1 Tonne

1 Tonne engine crane with single piston pump, 4-position jib, foldable legs, overload valves, castor wheels, and sling compatibility.

- Three pre-set jib positions for versatile lifting
- Single piston hydraulic pump for quick operation
- Folding design saves storage space
- Six durable castor wheels for smooth mobility
- Twin overload valves for added safety
- Compatible with various load slings and levellers

£249.95

Anti Spill Coolant Funnel Set

£39.95

- Fast and efficient coolant refilling for a wide range of cars and vans.
- Direct connection to the header or expansion tank for convenient top-up.
- Shut-off valve helps prevent over-filling and coolant spillage.
- Manufactured from durable ABS plastic with steel bayonet inserts, springs and rubber O-rings.
- Includes funnel with lid, threaded adaptors, bayonet adaptors, extension pipe and 45° adaptors

5905-WW

RADIATOR-MATE™ 35-Piece Pressure & Cooling Tester

£345.95

- Complete 35-piece kit for testing and refilling vehicle cooling systems.
- Includes 23 universal test caps and vacuum pump with 0-36 PSI gauge.
- Suitable for a wide range of domestic and import vehicles.
- Colour-coded caps allow quicker selection and improved workshop efficiency.
- Vacuum purge refill tool helps refill systems while reducing trapped air pockets.
- Updated to accommodate EV and hybrid vehicles.
- Supplied in a durable blow-moulded storage case.

5:1 Torque Multiplier Set - FORD 1.0 EcoBoost & 1.1 Petrol Engines

Enables correct removal and installation of the crankshaft pulley bolt on the Ford 1.0 EcoBoost engine. The crankshaft pulley bolt is tightened in stages to a very high torque loading.

- 5:1 Torque ratio, matches OE specification
- Ensures bolt is tightened correctly, no need to convert any torque figures or angular inputs

OE Refs: 303-1611, 303-1611-01, 303-1611-02

1000 AMP ULTRASAFE LITHIUM JUMP STARTER

- Lithium starter: 1,000 Amps for up to 20 jumps per charge.
- Safe & foolproof: Spark-proof with reverse polarity protection.
- 100 lumen LED: 7 modes including SOS & strobe.
- Charges devices on-the-go: Smartphones, tablets, e-watches - up to 4 phone charges.
- For petrol engines up to 6L and diesel up to 3L: Cars, boats, mowers, etc.

£99.95

NOCO Part No. GB40

2000 AMP ULTRASAFE LITHIUM JUMP STARTER

- Lithium starter: 2,000 Amps, 40 jumps per charge.
- Safe design: Spark-proof, reverse polarity protection.
- 400 lumen LED: 7 modes, including SOS.
- Charge devices: Up to 6 phone charges.
- Powers 12V devices: Inflators, inverters, etc.
- For petrol engines up to 8L & diesel up to 6L: Cars, SUVs, trucks, boats, RVs.

£199.95

NOCO Part No. GB70

PRO 3000 AMP LITHIUM JUMP STARTER

- Powerful lithium starter: 3,000 Amps for up to 80 jumps per charge.
- Safe & foolproof: Spark-proof and reverse polarity protected.
- 500 lumen LED light: 7 modes including SOS & strobe.
- Powers 12V devices: Tyre inflators, inverters, etc.
- Charges devices on-the-go: Smartphones, tablets, e-watches - up to 6 phone charges.
- Suitable for petrol engines up to 9L and diesel up to 7L: Cars, SUVs, trucks, boats, RVs.

£269.95

NOCO Part No. GB150

BOOST X 12V 4250 AMP JUMP STARTER

- Extreme 4250 Amp jump starter for powerful engine starts; part of the all-new Extreme Series.
- Fast recharges with USB-C technology - full charge in 2.7 hours or 5 minutes to jump start.
- 60-watt USB-C power bank for charging phones, laptops, and more.
- Enhanced UltraSafe technology with improved thermal efficiency and power management.
- Versatile for all vehicle types up to 10L petrol and 8L diesel engines.

£339.95

NOCO Part No. GBX155

5-AMP BATTERY CHARGER, BATTERY MAINTAINER, AND BATTERY DESULFATOR

- GENIUS5: More compact and powerful than G3500.
- Versatile for 6V/12V batteries, including lithium-ion.
- Precision charging with ambient temperature sensing.
- Charges batteries from 1-volt; Force Mode for zero volts.
- Easy setup and automatic operation.
- Restores and extends battery life.
- Compatible with a wide array of vehicles.

£84.95

NOCO Part No. GENIUS5

10 AMP BATTERY CHARGER, BATTERY MAINTAINER, AND BATTERY DESULFATOR

- For 6V & 12V lead-acid batteries, including flooded, gel, AGM, maintenance-free and lithium-ion.
- Integrated sensor detects the ambient temperature and alters the charge to eliminate over and under-charging.
- Charges batteries as low as 1 volt. New Force Mode allows manual charging of dead batteries down to 0 volts.
- Detects sulfation and acid stratification and restores performance for stronger starts and extends battery life.

£124.95

NOCO Part No. GENIUS10

FPS COMPRESSORS

The World's Largest Manufacturer of Air Compressors

WORKSHOP SERIES Belt Driven Lubricated

- Low speed professional and heavy duty workshop compressors.
- Single & 3 Phase Models
- 230 and 400 Volts
- Up to 11 Bar Pressure
- 3-10HP
- 150, 200 & 270 Litre Receivers

MAHLE ArcticPRO® Air Conditioning Service Machines

The compact one: ACX 310 (R134a) and ACX 410 (R1234yf)

Weights just 65kg and is extremely compact: our entry-level unit. With ACX 310 (R134a) and ACX 410 (R1234yf) your workshop can advance to the highest technological level in air conditioning servicing without major investment.

- Fully automatic process: recovery, vacuum and refill
- Patented coupling system with zero gas loss, saving money on gas
- Simple and intuitive, making a perfect second unit or an ideal mobile solution
- Timed automatic oil injection with cleaning function
- Export of reports as PDF files and software updates via USB interface
- Optional agricultural and construction machinery database (ACX 310 only)
- Automatic purging of non-condensing gas (manual release for ACX 310)
- Nitrogen forming gas leak test available (with optional external kit only)
- Oil bottles: 2 (fresh oil, used oil)
- Reservoir capacity: 12L, weight: 65kg

With UV test function: ACX 350 (R134a) and ACX 450 (R1234yf)

ACX 350 (R134a) and ACX 450 (R1234yf) are the perfect machines for garages wanting an A/C servicing machine with UV test function at a convenient price level.

- Fully automatic process: recovery, vacuum and refill
- Patented coupling system with zero gas loss, saving money on gas
- Convenient, fast, intuitive; meets the highest requirements in A/C servicing
- UV dye injection
- 7" user friendly touchscreen display
- Robust design with one-touch door lift system
- Automatic purging of non-condensing gas
- High visibility LED light indicates machine status
- Active oil protection: hermetically sealed oil containers
- Efficient servicing regardless of vehicle and ambient temperature
- Integrated N-Leak test function (can be activated digitally)
- USB interface, WiFi, Bluetooth for remote diagnostics and software updates
- AC viewer app: remote viewing of the machine display from your smartphone
- Oil bottles: 3 + 1 - fresh oil (PAG), used oil, UV additive + POE oil
- Reservoir capacity: 20L, weight: 74kg

MEET THE THINKTOOL 394 AND THINKTOOL 399 - POWERED BY AI.

The ThinkTool Expert 394 and 399 put the power of AI right at your fingertips. With built-in Thinkcar AI, these advanced diagnostic tablets make fault-finding quicker, smarter, and easier than ever. The AI automatically scans the whole vehicle, explains fault codes in plain language, and even guides you step-by-step through repairs for many vehicle systems, with coverage improving almost daily as AI gathers information from users. Call your local branch to arrange your AI diagnostic demonstration.

The Expert 394 is a rugged, high-performance tool with a crystal-clear 12" screen, perfect for fast, everyday diagnostics. For workshops that want even more, the Expert 399 takes things further with a larger 14" screen, dual-vehicle diagnostics, and wider coverage for passenger, EV, and heavy-duty vehicles. Whichever you choose, you'll get smarter technology, faster answers, and more efficient repairs, all backed by Thinkcar's cutting-edge AI.

THINKCAR DPF CLEANING GUN

Part No: DPFGUNRR

New from Thinkcar UK, the DPF cleaning gun is designed to clean the DPF without removing it from the vehicle. DPF cleaning Fluid is sprayed directly into the DPF via the pressure sensor or vacuum hole using compressed air. The hose tip contains tiny holes which help 'vaporise' the fluid for maximum cleaning action. Once applied, the fluid starts to break down and remove soot contamination from inside the DPF and restore flow to the system.

If the DPF is severely blocked, a forced re-gen may be required, or replacement of the DPF.

- Use with Thinkcar DPF cleaning fluid
- The fluid can be used in other DPF cleaning guns

OUR PRICE
£185.00

THINKDPF DPF CLEANING FLUID

Part No: DPF100RR

Introducing THINKDPF, the latest German engineered cleaning solution from Thinkcar UK, specifically designed for diesel particulate filters (DPFs) in professional workshops, fleet service centres, and mobile repair operations.

This high-performance cleaning fluid penetrates and dissolves soot and stubborn carbon build-up, restoring optimal flow and reducing backpressure, without the need to remove the DPF from the vehicle.

- Made in Germany – Manufactured to strict European quality standards
- Professional-Grade Cleaning Power – Effectively breaks down compacted DPF deposits
- Spray Gun Compatible – Works with all major DPF cleaning spray systems
- Time-Saving Formula – No dismantling required for on-car cleaning
- Trusted by Professionals – Used by garages, fleet operators, and mobile service engineers
- Emissions Compliance – Helps vehicles meet Euro 6 and other emission regulations

OUR PRICE
£23.95

THINKTOOL Euro 391

BRAND NEW PROFESSIONAL ONLINE PROGRAMMING TOOL

THINKTOOL Euro 391 is a new diagnostic tool with powerful online programming function. It supports 120+ passenger vehicles, 70+ EV vehicles with EV package and 150+ HGVs with HML package. The newly developed TCOS system provides optimised user interface and easier operation.

- Operating System: TCOS System
- ROM/RAM: 128G/4G
- Battery: 12600mAh/ 3.8V
- VCI: THINKLINK LITE
- Screen Size: 10-INCH

THINKTOOL Euro 195

9-INCH PROFESSIONAL DIAGNOSTIC PAD WITH THINKLINK LITE VCI

THINKTOOL Euro 195 is a newly developed full system, full function diagnostic tool, supporting DOIP & CAN FD protocols with the latest and more expansive passenger vehicle coverage. The Euro 195 keeps the original THINKTOOL back cover design, to support external modules such as printer, battery tester, thermal imager, worklight, TPMS module and more.

ArtiDiag Pro

Professional Diagnostics Within Reach

Featuring 31 maintenance service functions and comprehensive system scanning for over 100 makes and models, the ArtiDiag Pro was made for versatility. The Bi-Directional control feature helps users locate and resolve vehicle problems easier and faster. It supports ECU coding for customers who need to perform coding work in the car. The AutoVIN feature can automatically identify key vehicle information to diagnose and repair vehicles easier.

£415

ArtiDiag800 BT 2 Lifetime Updates

Enhance your diagnostics with the upgraded TOPDON ArtiDiag800 BT 2, now featuring CAN-FD protocol support and FCA Gateway Access for expanded coverage, including Chrysler, Fiat, and GM models.

The 800BT 2 from TOPDON UK is a special "offline" model which comes with LIFETIME software subscription and without bi-directional controls.

£390

TopsCan Pro

Turn Your Mobile Phone into a Smart Diagnostic Tool

TopScan Pro is a pocket-sized OBD2 tool that connects to your phone, making vehicle diagnostics easy on the go. It reads and clears fault codes and supports 70+ car brands across American, Asian, and European models.

TopScan Pro adds advanced features like a full-system DTC Repair Guide, AutoVIN, bidirectional control, performance testing, and 13 maintenance services, all accessible through its app.

£90

Tornado120000

Essential Battery Stabilisation

The T120A ensures a stable and reliable power supply for prolonged diagnostic sessions and ECU programming tasks. This capability becomes especially crucial when working with luxury vehicles such as BMW and Benz, where the T120A's maximum current of 120A comes into play. Say goodbye to interruptions caused by fluctuating power sources. The T120A delivers voltage and current consistency to keep your operations running smoothly.

£895

Tornado90000

Your Battery's Bodyguard

The Tornado90000 is TOPDON's newest cutting-edge smart charger, made for professional and commercial users. This device is suitable for all types of 12V and 24V lead-acid batteries, with a wide battery capacity range from 5 to 90 amps. The Tornado90000 features a current/voltage edit function and supplies users with the needed protection for batteries through its 9-step smart charging method and 6 charging modes.

£625

RLink Lite

Your All-In-One OEM Diagnostic Solution

The RLink Lite, a product independently developed by TOPDON, is a versatile diagnostic tool empowering users to achieve OE-level diagnostics for a wide range of vehicles. Featuring a user-friendly 5-inch LCD touchscreen, this diagnostic device operates smoothly.

£750

Phoenix Mobile ADAS

Built for Precision and Maximum Coverage

The Phoenix Mobile ADAS is a foldable, portable calibration tool for modern vehicles. It works with TOPDON Phoenix scanners and is perfect for shops handling repairs like windows, bumpers, and alignments. Available in Basic, Deluxe, or MAX kits to match your needs.

MOT Bay MTS Connected Upgrade Package

When moving premises, changing your company name or ownership of an existing MOT station, the MOT bay equipment needs to be upgraded to MTS connected.

This can often involve the replacement of the brake tester, emissions tester and decelerometer. We have put together an integrated package that includes a brake tester, emissions tester and decelerometer that all work together with a shared cabinet and PC.

Dama Wheel Alignment 4T & 4.5T Scissor Lifts

A perfect option for a service or wheel alignment lift where space is restricted, this 4t capacity service and wheel alignment lift has rear slip plates, integral scissor lift and removable fillets to fit front turnplates.

One of the real advantages of this lift is the suitability to surface mounting, with a minimum height of 240mm and long lightweight run on ramps it enables this lift to be used without excavation. An added benefit on the HDM4.5MSR is that it can also take a jacking as an option. (Not available on the hdm4.0ms)

Recessed 5t Wheel Alignment Long Platform Scissor Lift

A recessed 5t wheel alignment scissor with long 5100mm platforms is ideal for longer cars, vans & motorhomes. This lift has been built in rear lockable slip plate recesses. The lift is equipped with locking to ensure it is level at all heights. Being recessed there is no difficulty getting any vehicle no matter how low onto the lift.

Both versions have rails to carry a jacking beam as an option. The HDM5.0MSE has the additional benefit of an integral scissor lift to lift the vehicle wheel free once raised.

HGV/PSV Brake Tester

The Crypton RBT1850 roller brake tester has been designed to withstand a high daily throughput of light or heavy vehicles up to 20,000kg per axle. **DVSA approved** on Standard, ATL & ATF inc. latest 2022 ATF software. Can be used for testing on classes 4, 5 (HGV / PSV) & 7.

Benefits include:

- Heavy duty rollers
- Clear and concise on-screen software instruction
- Axle weights up to 20,000KGS
- Bi-directional & reversible
- 4x4 program included
- Full DVSA database with DTP numbers
- Mechanical brake, locks rollers for entry/exit
- Stainless proximity sensors
- Covered weigh cells
- Electronics within control cabinet for protection

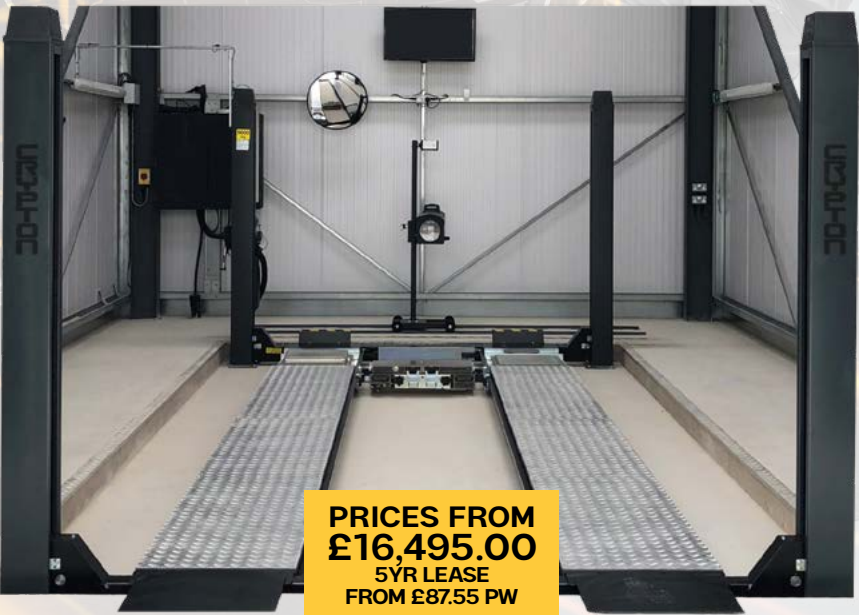

Options to add tachograph calibration, emissions testing and load simulation

GIULIANO P43 WHEEL BALANCER WITH 3D AUTOMATIC DATA INPUT

All rim data is entered automatically via the Weight Placement Arm and SmartWidth™ technology, and a lazer directs the operator to the precise plane for weight placement, which can be done at 6 o'clock or 12 o'clock. LED illumination inside of the rim makes the working process even more convenient for the user. An electronic brake, incredibly quiet and fast operation, and handy integral storage makes the P43 worthy of the 'Premium Line' status.

- 3D Fully-Automatic Data Input using SmartWidth™
- Laser guidance for precise location of stick-on weights
- Electronic brake
- LED illumination of the inside rim working area
- Cycle time as low as 4.7 seconds
- Integral storage trays within chassis
- Unique multi-tier warranty up to 5 years

£2,295.00

CODE: P43
5YR LEASE £12.18PW

BALCO i-LIGN 2 TABLET-BASED 8CCD WHEEL ALIGNMENT SYSTEM

Nothing typifies the future of alignment more than the i-Lign 2. Compact, portable and the convenience of Tablet-based operation sets this apart from cumbersome cabinets and dated PC operation.

- 10" Portable tablet with WiFi and magnetic docking
- Luxury, lightweight and speedy 3-point clamps
- Practical trolley with integral charging for heads and accessory storage
- Instant vehicle data collection by entering Vehicle Registration Number
- Unique, remote monitoring system allowing access to data such as number of alignments, time taken etc.
- 2 Year warranty
- Includes professional installation and training

£7,995.00

CODE: BALCO i-LIGN 2
5YR LEASE £42.44PW

Having been founded in 1976, this year Giuliano Automotive celebrate 50 years of manufacturing premium quality tyre equipment in Italy. To highlight this incredible milestone, we have this limited 'Anniversary Package, available alongside the traditional range.

TC50 'GOLD ANNIVERSARY, TYRE CHANGER

The 'Gold', anniversary model TC50 is based around our heavy-duty chassis and main column which has become the staple for tyre shops and garages looking for longevity and traditional build quality. With a tall main column, anyone working on wider tyres will notice the difference in the amount of working space available, even when removing the bottom bead.

The patented 'Power Out' system on the bead breaker assists in pushing the 'shovel' back out after the bead breaking process, and the large turntable with extra-thick plate means that the TC50 makes light work of large alloy rims fitted with ultra low-profile tyres. Overall, this tyre changer offers excellent value for money given its specification and typical, rugged construction you would expect from Giuliano.

- 10" to 24" Clamping
- 3-Way Assist Arm
- Integral Tool/Consumable storage
- 'Power Out' bead breaker system (assists blade return to home position)
- 2 Years Parts & Labour Warranty

£2,495.00

**CODE: TC50
5YR LEASE £13.24PW**

WB50 'GOLD ANNIVERSARY, WHEEL BALANCER

An incredible wheel balancer given the celebratory price applied to this well-spec'd model. Rim data is entered automatically using SmartWidth™ technology, and the elevated display provides a combination of ergonomic operation and practicality.

The comfort of the virtually silent spin cycle and smooth brake mechanism just shouts quality, and with a 4.7 second balancing cycle on a typical rim, the operator can be sure of speedy floor-to-floor operation. A handy storage system integral to the chassis adds a nice touch for storing additional accessories or tools.

- 3D Automatic Data Input
- Large, raised LED display
- Integral storage to chassis
- Shaft-Lock for easy weight placement
- 2 Years Parts & Labour Warranty

£2,195.00

**CODE: WB50
5YR LEASE £11.65PW**

TYRE SERVICE PACKAGES

PLATINUM

Tyre Changer: **HDM189HPD-S** | Assist Arm: **HAA390H**
Wheel Balancer: **HDMB81**

Our Platinum package represents the highest level of quality, strength and specification in our range. It's ideal for high-volume environments like busy garages and tyre bays, as well as users who demand maximum performance and accuracy. It's also perfectly suited for handling high-performance and high-value wheels.

The tyre changer is robust and precise, featuring a tilt-back column, assist arms, a large 28" turntable, twin-speed motor, leverless operation, tubeless inflation and a twin-position bead breaker. The leverless system ensures wheels and rims remain undamaged, using an automated removal tongue at the touch of a button.

The package also includes the HDMB81 premium balancer, with automatic measuring, sonar technology, LED lighting, laser guidance, auto positioning, and a wide range of balancing programs.

The Platinum Plus package also includes the HDMB82N premium balancer that offers Pneumatic wheel locking on the shaft which improves speed of fitting and accuracy of mounting weights.

DIAMOND

Tyre Changer: **HDM189HPD** | Assist Arm: **HAA390H**
Wheel Balancer: **HDMB81**

Our Diamond and Diamond Plus packages offer high-spec, top-quality equipment, ideal for premium garages and tyre bays working across all vehicle types.

The heavy-duty tyre changer delivers strength and precision, featuring a tilt-back column, assist arms, large 28" turntable and twin-speed motor. It includes tubeless inflation and a twin-position bead breaker, while the demount head ensures control with alloy wheel protection to prevent rim damage - perfect for operators using a traditional lever system.

The Diamond package also includes the HDMB81 premium balancer, with automatic measuring, built-in sonar, LED lighting, laser guidance, auto positioning and a wide range of balancing programs. The Diamond Plus package includes the HDMB82N premium balancer that offers pneumatic wheel locking on the shaft which improves speed of fitting and accuracy of mounting.

BRONZE

Tyre Changer: **HDM186D** | Assist Arm: **HAA320D**
Wheel Balancer: **HDMB60B**

The Bronze package offers a competitively priced entry-level tyre changer and wheel balancer, ideal for low-volume users such as smaller garages and tyre bays.

Despite its affordability, the HDM186D & HAA320D tyre changer is well-equipped, featuring an assist arm, tilting column, dual rotation, large 24" turntable and alloy wheel protection.

The standard wheel balancer provides fast, accurate results with static and dynamic balancing, plus three alloy wheel programs.

An upgrade option includes the HDMB3020B balancer, delivering excellent value with advanced features such as hidden weight, aluminium, spoke and smart programs, along with automatic measurement and a brake pedal for faster operation.

M18 FUEL™ 1/2" HIGH TORQUE IMPACT WRENCH HUGE POWER, COMPACT SIZE

- Great power density: the M18 FUEL™ high torque impact wrench delivers 1491 Nm fastening torque and 2034 Nm of nut-busting torque in a compact size of 193 mm, which gives more access in tight spaces
- 2000 RPMs of no load speed to perform your task 35% faster than with the previous gen
- Our battery isolation system provides a secure battery connection and controls vibration transmitted to the pack
- Robust gearcase for more durability
- Tri-LEDs deliver high-definition lighting to increase workspace visibility
- 4-Mode DRIVE CONTROL allows the user to shift into four different speed and torque settings to maximise application versatility
- Mode 4 bolt removal, provides maximum nut-busting torque then shifts to 750 rpm for outstanding control when removing fasteners
- The DNA of our FUEL™ platform redefines the balance of cordless technologies. MILWAUKEE's POWERSTATE™ brushless motor, REDLITHIUM™ battery pack and REDLINK PLUS™ electronic intelligence delivering outstanding power, run time and durability
- Flexible battery system: works with all MILWAUKEE® M18™ batteries

NEW! LATEST GENERATION 1/2" IMPACT GUN
