TERMS & CONDITIONS

- Lease example: Gemco DLH40B - Offer price £3095. 5 Year lease plan: Advance rental £71.20 + VAT, followed by 59 payments of £71.20 + VAT, weekly equivalent £16.43 + VAT. Set up and document fees apply, please ask for details.
- All lease rental prices shown are weekly equivalents assuming advance rental, equivalent to 1 month's rental and all subsequent rentals payable monthly.
- Lease figures may vary according to status and are for illustration purposes only.
- All lease transactions are subject to a documentation fee.
- All prices shown are subject to VAT and subject to status.
- All offers are subject to availability and applicable to UK mainland only, certain postcodes may incur an additional delivery charge.
- All offers available until December 31st 2026, prices and specifications subject to change without notice.
- E and OE.
- Any additional costs incurred concerning LOLER, PUWER and BS7980 regulations are the customer's responsibility.
- Installation is to a prepared site, excluding electrical installation. Please make sure your site meets the requirements for the equipment purchased, such as floor quality, concrete depth, power supply and access. If in doubt, please contact your local branch or the supplier.

THERMOBILE: The leaders in efficient Workshop Heating

Manual Ignition Bio Oil Heaters with Flue Kit

- Fast return on investment
- Efficient, virtually soot-free combustion
- Burns used oil, diesel or a combination
- Built-in fuel tank, filters & fuel pump
- Flame failure protection
- Overflow protection for burner dish
- Overheat protection (except Bio B)
- Includes complete flue kit (roof seal, fitting kit & two wall bands)
- Bio Energy 2 & Bio Energy 3 Feature a burner draw system for easier lighting and cleaning plus a heat exchanger for higher efficiency

FLUE KIT INCLUDED

Model	Heat Capacity Min (Btu/hr)	Heat Capacity Max (Btu/hr)	Consumption (min)	Consumption (max)	Fuel Tank Capacity	Fan Capacity	Offer Price	5 year lease pw

These heaters also operate on these fuels:

- Bio Diesel Oil
- HVO
- Processed Fuel Oil (PFO)
- Rapeseed, linseed & some Vegetable oils

Manual ignition Bio Oil heaters must be connected to a suitable flue system (min height of 1m above roof apex & 6m above ground level). A full range of flue accessories is available.

Stainless Steel Flue Kit INCLUDED:

- Gives approx. 5.2m (17ft) ground clearance
- 4 x 1m flue pipes
- 1 x Terminal
- 2 x Adjustable wall fixing brackets
- 1 x High temperature silicone rubber roof seal & fixing kit for profiled or corrugated roof & cladding
- 1 Tee-Piece (flue to heater)
- Additional 1m flue pipe available

No space for a bulk fuel tank? PROHEAT is your solution!

PROHEAT Oil Fired Cabinet with built-in Fuel Tank

- Use with 28 second fuel (paraffin/kerosene) or 35 second fuel (heating oil/diesel)
- Low-noise radial fan
- Proheat 30 & 60: 240V Proheat 100: 400V
- Equipped with thermostat
- Capacities of 30, 64 and 97kW net
- 4-Sided adjustable outlet opening guarantees equal air distribution
- Summer/winter circuit for heating/ventilation

GIULIANO P43 WHEEL BALANCER WITH 3D AUTOMATIC DATA INPUT

All rim data is entered automatically via the Weight Placement Arm and SmartWidth™ technology, and a lazer directs the operator to the precise plane for weight placement, which can be done at 6 o'clock or 12 o'clock. LED illumination inside of the rim makes the working process even more convenient for the user. An electronic brake, incredibly quiet and fast operation, and handy integral storage makes the P43 worthy of the 'Premium Line' status.

- 3D Fully-Automatic Data Input using SmartWidth™
- Laser guidance for precise location of stick-on weights
- Electronic brake
- LED illumination of the inside rim working area
- Cycle time as low as 4.7 seconds
- Integral storage trays within chassis
- Unique multi-tier warranty up to 5 years

£2,295.00

CODE: P43
5YR LEASE £12.18PW

SILVER i-LIGN 2 TABLET-BASED 8CCD WHEEL ALIGNMENT SYSTEM

Nothing typifies the future of alignment more than the i-Lign 2. Compact, portable and the convenience of Tablet-based operation sets this apart from cumbersome cabinets and dated PC operation.

- 10" Portable tablet with WiFi and magnetic docking
- Luxury, lightweight and speedy 3-point clamps
- Practical trolley with integral charging for heads and accessory storage
- Instant vehicle data collection by entering Vehicle Registration Number
- Unique, remote monitoring system allowing access to data such as number of alignments, time taken etc.
- 2 Year warranty
- Includes professional installation and training

£7,995.00

CODE: SILVER i-LIGN 2
5YR LEASE £42.44PW

Having been founded in 1976, this year Giuliano Automotive celebrate 50 years of manufacturing premium quality tyre equipment in Italy. To highlight this incredible milestone, we have this limited 'Anniversary Package, available alongside the traditional range.

TC50 'GOLD ANNIVERSARY, TYRE CHANGER

The 'Gold', anniversary model TC50 is based around our heavy-duty chassis and main column which has become the staple for tyre shops and garages looking for longevity and traditional build quality. With a tall main column, anyone working on wider tyres will notice the difference in the amount of working space available, even when removing the bottom bead.

The patented 'Power Out' system on the bead breaker assists in pushing the 'shovel' back out after the bead breaking process, and the large turntable with extra-thick plate means that the TC50 makes light work of large alloy rims fitted with ultra low-profile tyres. Overall, this tyre changer offers excellent value for money given its specification and typical, rugged construction you would expect from Giuliano.

- 10" to 24" Clamping
- 3-Way Assist Arm
- Integral Tool/Consumable storage
- 'Power Out' bead breaker system (assists blade return to home position)
- 2 Years Parts & Labour Warranty

£2,495.00

**CODE: TC50
5YR LEASE £13.24PW**

WB50 'GOLD ANNIVERSARY, WHEEL BALANCER

An incredible wheel balancer given the celebratory price applied to this well-spec'd model. Rim data is entered automatically using SmartWidth™ technology, and the elevated display provides a combination of ergonomic operation and practicality.

The comfort of the virtually silent spin cycle and smooth brake mechanism just shouts quality, and with a 4.7 second balancing cycle on a typical rim, the operator can be sure of speedy floor-to-floor operation. A handy storage system integral to the chassis adds a nice touch for storing additional accessories or tools.

- 3D Automatic Data Input
- Large, raised LED display
- Integral storage to chassis
- Shaft-Lock for easy weight placement
- 2 Years Parts & Labour Warranty

FDP1070 AUTOMATIC TYRE CHANGER

For cars and light commercial vehicles, suitable for Low Profile and Run-Flat tyres as well as Sport Alloy Rims

- Smart Rim capacity from 12" to 26"
- Pneumatic control for up/down operating mounting head
- Pneumatic tilting column by pedal control
- The bead breaker offers two different positions
- Double acting bead breaker cylinder
- Tubeless inflation, pedal operated, with air tank
- Inverter technology for variable rotation speed, controlled by the pedal
- Plastic protection to prevent damage to alloy rims

FDR1080 WHEEL BALANCER

With LCD monitor suitable for cars, SUV and LCV vehicles.

- Automatic 3D data entry via sonar (Distance - Diameter - Width)
- Sensor gauge for diameter and distance data entry for ALU rims
- Electromagnetic brake with auto search of the unbalance position
- LED lighting & Laser indicator for applying adhesive weights
- 6 o'clock weight positioning (ALU special program)
- Off road specific program
- 2 balancing programs for motorbike wheels
- Hidden weight and split weight program
- Provided with 4 cones (cones working size 42-140mm)

HGV/PSV Brake Tester

The Crypton RBT1850 roller brake tester has been designed to withstand a high daily throughput of light or heavy vehicles up to 20,000kg per axle. **DVSA approved** on Standard, ATL & ATF inc. latest 2022 ATF software. Can be used for testing on classes 4, 5 (HGV / PSV) & 7.

Benefits include:

- Heavy duty rollers
- Clear and concise on-screen software instruction
- Axle weights up to 20,000KGS
- Bi-directional & reversible
- 4x4 program included
- Full DVSA database with DTP numbers
- Mechanical brake, locks rollers for entry/exit
- Stainless proximity sensors
- Covered weigh cells
- Electronics within control cabinet for protection

eco Tyre Equipment

Buy any eco tyre changer/wheel balancer combo and save a further £250!

The fully automatic ecomount 22 Plus tyre changer pairs perfectly with the ecospin Junior wheel balancer to create a great option for garages and MOT stations that can't justify a huge investment in tyre equipment, but need to be able to handle run-flat or difficult, low profile tyres. For just £400 extra, upgrade to the Junior 2D wheel balancer, for automatic data entry of wheel diameter and offset.

MOT Bay MTS Connected Upgrade Package

When moving premises, changing your company name or ownership of an existing MOT station the MOT bay equipment needs to be upgraded to MTS connected.

This can often involve the replacement of the brake tester, emissions tester and decelerometer. We have put together an integrated package that includes a brake tester, emissions tester and decelerometer that all work together with a shared cabinet and PC.

Dama Class I to VII Headlight Aligner

DVSA approved for Class I to Class VII.

The Dama headlight aligners offer leading edge specifications with dual laser alignment for speed and accuracy.

These advanced beamsetters have a laser in the centre of the screen which highlights the centre of the headlight and enables reliable height positioning of the screen to the headlight. The second high quality laser is positioned at the top of the mast to achieve accurate longitudinal aim.

Dama Electronic Headlight Aligner

DVSA
Approved

MOT approved digital electronic headlight aligner capable of testing, aligning & adjusting all types of headlight including traditional, digital, LED & matrix. The new DAR022 Electronic is one of the first electronic headlight aligners to be approved by the DVSA for all classes of MOT bays. The new design meets all the requirements for MOT bays including visual window, traditional pattern screen and calibration but also has the latest imaging camera technology, built in PC tablet and latest software

Furthermore the accuracy of testing and calibration has been enhanced by an improving stability with a new 3 wheel base design, counterbalance height control and build quality.

Dama HDM5.0T/2 - 5T 2 Post Lift

Building on the success of the HDM5.0t/1 the /2 has been developed and honed to offer a superb lift for garages that need to carry out repairs on 4x4s, larger vans & motorhomes. The semi base design offers a small cover between posts and has a smaller outside width but larger internal width. Needing no overhead bars the lift is completely clear above which is ideal for working on varying sizes of vehicle and also perfect for garages with restricted height. All backed by our 2 year parts and labour warranty. The HDM5.0T/2 has triple extending arms that have an impressive reach from 890mm to 1700mm on each arm and pick up pads that start at 110mm and adjust to 150mm. A set of 70mm and 100mm pad extensions are supplied as standard, necessary to reach high chassis on 4x4s and vans. Price includes delivery and installation.

TYRE SERVICE PACKAGES

PLATINUM

Tyre Changer: **HDM189HPD-S** | Assist Arm: **HAA390H**
Wheel Balancer: **HDMB81**

Our Platinum package represents the highest level of quality, strength and specification in our range. It's ideal for high-volume environments like busy garages and tyre bays, as well as users who demand maximum performance and accuracy. It's also perfectly suited for handling high-performance and high-value wheels.

The tyre changer is robust and precise, featuring a tilt-back column, assist arms, a large 28" turntable, twin-speed motor, leverless operation, tubeless inflation and a twin-position bead breaker. The leverless system ensures wheels and rims remain undamaged, using an automated removal tongue at the touch of a button.

The package also includes the HDMB81 premium balancer, with automatic measuring, sonar technology, LED lighting, laser guidance, auto positioning, and a wide range of balancing programs.

The Platinum Plus package also includes the HDMB82N premium balancer that offers Pneumatic wheel locking on the shaft which improves speed of fitting and accuracy of mounting weights.

SILVER

Tyre Changer: **HDM189TID** | Assist Arm: **HAA320D**
Wheel Balancer: **HDMB60B**

The Silver and Silver Plus packages enhance our Bronze entry-level tyre changer with tubeless inflation, ideal for run-flats, low-profile tyres and those with collapsed sidewalls. Rapid air jets expand the tyre onto the rim quickly and efficiently.

The HDM186TID 230V tyre changer includes an assist arm, tilting column, dual rotation, large 24" turntable and alloy wheel protection, alongside tubeless inflation.

The Silver package includes the HDMB60B balancer, offering fast, accurate static and dynamic balancing with alloy wheel programs. Silver Plus upgrades to the HDMB3020B, a feature-rich balancer with hidden weight, aluminium, spoke and smart modes, plus automatic measurement and a brake pedal for faster operation.

Changer Spec:

BRONZE

Tyre Changer: **HDM186D** | Assist Arm: **HAA320D**
Wheel Balancer: **HDMB60B**

The Bronze package offers a competitively priced entry-level tyre changer and wheel balancer, ideal for low-volume users such as smaller garages and tyre bays.

Despite its affordability, the HDM186D & HAA320D tyre changer is well-equipped, featuring an assist arm, tilting column, dual rotation, large 24" turntable and alloy wheel protection.

The standard wheel balancer provides fast, accurate results with static and dynamic balancing, plus three alloy wheel programs.

An upgrade option includes the HDMB3020B balancer, delivering excellent value with advanced features such as hidden weight, aluminium, spoke and smart programs, along with automatic measurement and a brake pedal for faster operation.

DEMONSTRATIONS AVAILABLE UPON REQUEST

UNIVERSAL WIPER ARM PULLER WITH SPRING LOADED JAWS

This universal puller is designed for the safe and efficient removal of wiper arms without causing damage to the surrounding components. The spring-loaded jaws automatically adjust and grip securely, allowing quick setup even in confined spaces. The tool provides a controlled pulling action that prevents bending or breaking of the wiper arm or linkage. With a working range of 15–37mm, it covers a wide selection of passenger vehicles including BMW, Vauxhall, Audi and VW.

Features:

- Working range 15–37mm
- Drive size SW17, 6-point hex
- Spring-loaded jaws for easy and secure setup
- Suitable for universal application across various makes including BMW, Vauxhall, Audi/VW
- Prevents damage to wiper arm and linkage during removal

£134.20
Part No: 65822100

MILLING AND CLEANING TOOL FOR TYRE VALVE SEALING SEATS IN ALLOY RIMS

Designed for the targeted restoration of tyre valve sealing seats in alloy wheels affected by salt corrosion, oxidation, or lacquer degradation. Effectively removes corrosion residues and flaking clear coat that can cause air leakage due to uneven valve seating. Enables a sequential process: initial cleaning and deburring, followed by levelling of the seat using the included grinding and polishing pins.

Includes two 2-stage grinding and polishing pins for reworking the valve seat surface, and three actuating tools of varying lengths to accommodate different rim geometries. Compatible with all common valve types used in alloy wheels: rubber valves, threaded steel valves, and TPMS valves.

£119.00
Part No: 12155000

STAINLESS STEEL CV BOOT CLAMPS 24 – 60MM & 58 – 130mm (PACKS OF 20)

These high-quality stainless steel CV boot clamps are designed to provide a secure and lasting fit and are available in two sizes, 24 – 60mm & 58 – 130mm. Supplied in packs of 20, they're ideal for professional and DIY use alike.

Features:

- Precision-made with small hook increments for a tighter, more secure hold.
- Supplied round for faster, easier installation.
- Requires less crimping effort thanks to efficient design.
- Manufactured from durable stainless steel for long-term reliability.
- Suitable for a wide range of CV boot applications.
- For best results, we recommend using our adjustable CV boot pliers (12267010) for a clean and consistent crimp.

4-PIECE FLEXIBLE MAGNETIC LIFTER SET – LONG REACH, HIGH ADHESION, ULTRA-SLIM HEAD

This 4-piece flexible magnetic lifter set covers a wide range of magnetic retrieval tasks with adhesion forces from 120g to 1800g. Each tool is designed for manoeuvrability in confined or hard-to-reach areas, making it suitable for workshop, automotive, or maintenance use. These are extremely flexible, long magnets, ideal for retrieving swarf, dropped fasteners, or broken injector/glow plug parts during removal. The slim head on size 1 is small enough to pass through an injector hole and into the combustion chamber or cylinder when needed.

Size 1 features a flexible shaft made of coated copper wire and a hexagonal handle made of PP. Sizes 2 to 4 use a more robust flexible chromed shaft with black hexagonal PP handles. The set includes various shaft lengths and head diameters to accommodate different retrieval needs.

Set Contents:

- Size 1 (Art. no. 52601010): 400mm, 120g adhesion, 4.0mm head Ø
- Size 2 (Art. no. 52601020): 460mm, 500g adhesion, 8.0mm head Ø
- Size 3 (Art. no. 52601030): 460mm, 1000g adhesion, 12.0mm head Ø
- Size 4 (Art. no. 52601040): 520mm, 1800g adhesion, 15.0mm head Ø

£91.40
Part No: 52601100

EXHAUST SENSOR & BRAKE LINE LOCKING WRENCH SET – 8 PIECE SLIDE-THROUGH DESIGN

This innovative 8-piece sensor wrench set is designed for modern exhaust temperature and differential pressure sensors featuring a 90° curved steel cable directly after the hex. On many vehicles this cable layout prevents the use of conventional sensor sockets or spanners, as the cable and connector obstruct access. This specialised set provides the correct solution for technicians working on modern emissions systems.

At the centre of the system is a durable 3/8" drive base that accepts interchangeable sensor wrench head inserts. The robust base prevents the wrench head from spreading under load, ensuring even pressure is applied to the

nut and allowing reliable torque transfer during removal or installation.

The modular design provides excellent access in confined engine bays where exhaust components and wiring limit working space. By selecting the correct head and combining it with the compact drive base, technicians can work safely in areas where standard tools cannot reach.

The set includes interchangeable heads in sizes 11, 12, 13, 14, 16, 17 and 19mm, covering common sensor sizes used on modern vehicles. It is suitable for exhaust temperature and differential pressure sensors with integrated 90° cable bends and can also be used

for loosening brake pipe unions and hydraulic connections.

Engineered for professional workshops, this tool set enables safe, controlled removal and installation of difficult-to-access sensors and fittings.

£329.00
Part No: 60525400

HEAVY DUTY TIE ROD SPANNER SET 11-19MM WITH HANDLE

Engineered for high-load applications, this heavy-duty spanner set is specifically designed to hold the tie rod steady during the loosening or tightening of the tie rod end nut. Built for professional use, it offers exceptional stability and torque transmission even on seized or corroded assemblies.

Precision-Machined Jaws – Manufactured from hardened alloy steel for optimal strength and dimensional accuracy, the wide solid-profile jaws maintain full surface contact with the tie rod, eliminating flex and spread under high torque.

Anti-Slip Holding Power – The robust design ensures reliable grip without the need for traditional pipe grips or adjustable spanners, which often mar the surface or slip under load.

Double-Ended Steel Holding Tube – Supplied with a rigid steel tube featuring two receptacles for the spanners, allowing dual-ended setup; facilitates a straight-through hold or an angled offset for improved access in confined engine bays or subframe areas.

1/2" Square Drive Interface – Each spanner incorporates a 1/2" square drive, compatible with

standard ratchets, torque wrenches, or breaker bars; enables controlled rotational force application or static holding under load.

Set includes: 11-19mm spanners & double ended handle.

Other sizes available separately:
21mm 61722100
22mm 61086200

Extra double ended handle
61086500

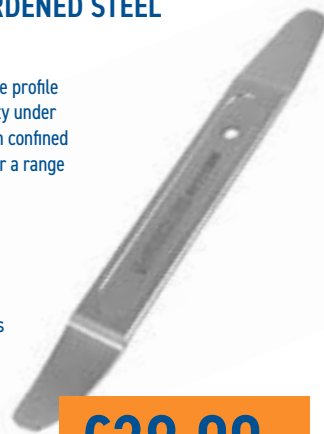

£449.00
Part No: 61085560

2 SIDED LEVER TOOL WITH HARDENED STEEL CURVED & FLAT BLADES

This universal lever tool features a two-sided blade profile crafted from hardened steel for enhanced durability under load. Its slim and tapered design enables access in confined or obstructed working positions, making it ideal for a range of dismantling tasks.

Specifications:

- Two-sided hardened steel blade for versatile application
- Slim form factor for use in hard-to-reach areas
- Tapered edges for effective leverage and component release
- Suitable for loosening interior trim panels & switches, water pumps, cylinder heads, crankshaft sprockets, camshaft sprockets, and similar components.

£29.00
Part No: 61111306

2 SIDED MINI LEVER TOOL WITH HARDENED STEEL CURVED & FLAT BLADES

Engineered for precision, this robust tool features a slim, tapered profile, optimised for accessing confined or hard-to-reach areas. The dual-edged, hardened steel blade ensures superior strength and durability, making it ideal for controlled prying and component separation.

Specifications:

- Double ended flat and curved blades.
- Particularly suited for the removal and release of metal clips, plastic components, trim panels, water pumps, and more.
- Specifications: L: 125mm × W: 15mm × H: 5mm

£19.00

UNIVERSAL REMOVAL TOOL FOR FUEL & ADBLUE TANK LOCK RINGS

Universal fuel sender lock ring tool for removing and installing tank caps on fuel and AdBlue systems in confined workshop spaces.

Features:

- Suitable for fuel and AdBlue tank lock rings
- Works with plastic caps and metal retaining rings
- Adjustable base fits various gripping arms
- Gripping arms can be positioned inside the ring
- Segmentable gripping surfaces suit most locking systems

£298.60
Part No: 61600000

JACK PAD SET FOR TESLA MODELS 3, S, X & Y

This premium rubber jack pad set is designed specifically for Tesla Model 3, S, X, and Y vehicles. Ideal for use with two-post lifts or floor jacks, the pads engage securely with the factory-designated lift points via a form-fitting insertion post, ensuring correct alignment and minimizing the risk of misplacement.

Manufactured from high-density rubber, each pad provides a 62mm diameter load-bearing surface, effectively distributing vehicle weight to prevent damage to sensitive underbody components, including the battery pack and side skirts.

The integrated signal-colour identifier enhances visibility during lift setup, aiding in the accurate placement of lift arms and reducing the likelihood of operator error.

£116.80
Part No: 90025650

5 PIECE RATCHET TENSION LINE SET

The 5-Piece Ratchet Tension Line Set is an essential tool for securing and repositioning components away from the working area. Whether you need to pull back suspension parts, wiring looms, or safely suspend brake calipers during servicing, this set provides a secure and controlled solution.

Equipped with strong S-hooks, attachment is quick and reliable, ensuring a firm grip on various components. The ratchet mechanism allows for precise tension adjustment, enabling you to achieve the required length effortlessly. This ensures optimal positioning while preventing strain on sensitive parts, such as brake hoses when calipers are removed.

Key Advantages

- **Versatile Use** – Ideal for pulling, retaining, and suspending components such as suspension arms, wiring looms, and brake calipers.
- **Secure S-Hook Attachment** – Provides a firm grip on anchor points for stability and safety.
- **Adjustable Length** – The ratchet system allows for precise tension control to suit different applications.
- **Strong & Durable** – Built to withstand workshop conditions for repeated professional and DIY use.

Contents

- 3 Mini straps 1.8m long 4mm line diameter
- 2 Maxi straps 2m long 4mm line diameter

£76.80
Part No: 80251130

INJECTOR SHAFT CLEANING & SEAT CUTTING SET MODULES 1 & 2

This injector cleaning and seat cutting set includes five sizes of shaft cleaning brushes and matching seat cleaning brushes for removing carbon and debris from the injector bore. Nozzle blanks are supplied to stop contamination entering the engine while cleaning is carried out. The kit also includes a seat cutter with the two most common cutting blades for preparing the sealing seat accurately, along with a dedicated brush for cleaning the nozzle hole. Together, these tools provide a controlled and effective method for cleaning the injector bore and restoring the sealing seat before refitting the injector.

£599.00
Part No: 9038005

COMPLETE FUEL LINE REPAIR AND CONNECTOR INSTALLATION SET WITH PRESS TOOL

This set is designed for manufacturing and repairing fuel lines with SAE quick connectors from 1/4" to 1/2", allowing fast and reliable assembly of plastic lines, hoses and couplings. It includes two 1-metre fuel hoses and a full selection of straight and angled connectors, making it suitable for fuel lines, vacuum lines and EVAP systems across many vehicle models.

In many cases the original fuel pipes are difficult to obtain or no longer available. This set allows the technician to build or repair the line directly on the vehicle, avoiding awkward routing issues and eliminating the need for a complete replacement pipe. The plugs and couplings are pressed securely into the hoses using the supplied tools, giving a durable, leak-free, OEM-level repair and providing a fast and practical turnaround.

Features:

- 44-Piece fuel line connector repair set available separately - Part No. 90970045

£239.00
Part No: 90970060

SPECIAL TOOL SET - VAG FRONT AXLE SUSPENSION (4-PIECE)

4-Piece set designed to simplify work on front axle suspension components in VAG vehicles. Ideal for replacement of wheel bearings, drive shafts, struts, and dampers.

Includes:

- Spacer for ball joint bolt extension.
- Stabilises the steering knuckle and improves access when removing and fitting wheel bearing bolts
- Bolt hole spacing: 67mm
- Suitable for: Audi A3, VW Golf, Tiguan, Passat, Caddy, Touran, etc

Short XZN12 socket - VAG vehicles

- For loosening the wheel bearing bolt in aluminium housings
- Extra-slim profile enables access with drive shaft in place, without removing the ball joint

Long XZN12 socket - VAG MacPherson strut vehicles

- For damage-free loosening of wheel bearing bolts in aluminium housings with installed MacPherson struts
- Suitable for VW Golf 5, Sharan, Audi A3, and similar

Universal spreader tool.

- For opening strut clamps (to detach strut from wheel bearing housing) or ball joint sockets

- Working range: 5.0-11.5mm
- Drive: 17mm | Pulling force: 70N
- Material: 42CrMo | Length: 55.5mm | Width: 30mm

£160.50
Part No: 91694150

BMW / MINI LOCKING WHEEL BOLT REMOVAL SET

BMW and Mini locking bolts incorporate a free-spinning outer ring to resist tampering. If the original security key is lost or damaged, traditional removal methods are often ineffective and risk damaging the wheel. This toolset enables non-destructive extraction by removing the bolt's head without touching the wheel, followed by direct engagement with the internal spline profile.

Features:

- Secure 3-jaw system clamps around the collar and bolt head
- The slide hammer delivers axial shock and pulling force to detach the bolt face.
- Exposed multi-spline core allows socket-driven extraction
- No contact with the rim surface - eliminates paint or alloy damage
- Suitable for deeply recessed bolts with restricted access
- Allows greater torque transmission than OEM security key
- Fast and straightforward operation - ideal for workshop efficiency

£349.00
Part No: 91372250

VAG MULTILINK TOP SUSPENSION BOLT DRILL OUT KIT

Developed for precision drilling of corroded upper suspension bolts on aluminium and steel VAG steering knuckles, this kit provides a safe solution to a difficult, labour-intensive repair.

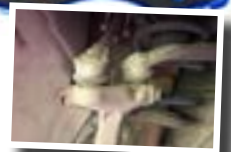

The jig clamps securely around the steering knuckle with the suspension still fitted, guiding the drill accurately through the centre of the bolt. This enables controlled removal while reducing the risk of misalignment, damaged clamps or deformed components.

Key Benefits:

- Suitable for aluminium and steel VAG steering knuckles.
- Adjustable jig fits various knuckle geometries.
- Secure clamping ensures stable, centralised drilling.
- Reduces damage, labour time and costly component replacement.

Procedure:

- Clamp the jig around the steering knuckle.
- Drill a centring hole, then remove the bolt core using the guide.
- Release the remaining bolt with a vibration gun.
- Clean the bore with the supplied bushes and fit the new bolt.

£539.50
Part No: 91746150

Schumacher® INC100 100A Flash Reprogrammer/Power Supply with Battery Support, 12V

The Schumacher INC100 provides constant power for ECU reprogramming and diagnostics, delivering 70A continuous and 100A maximum output with microprocessor control, digital display and multiple modes.

- Automatic microprocessor control.
- Digital voltmeter/tester.
- Adjustable 13.0–14.8V output.
- Flash reprogram function.
- Boost and service modes.
- Adjustable mounting brackets.
- 5m cables with heavy-duty clamps and Anderson connector.

£649.95

Stock Code. 32185

Vertical Transmission Jack 500kg

This 500kg vertical transmission jack offers hands free foot pedal operation, a spring-loaded lowering mechanism, overload safety valve and four steel castors for easy manoeuvrability.

- Hands-free foot pedal operation.
- Spring-loaded lowering.
- Four steel castors.
- Overload safety valve.

£174.95

Stock Code. 08556

Schumacher® SCI90 6/12V Multi-Function Battery Charger with Engine Start Mode, 3A/5A/20A

The Schumacher multi-function battery charger charges, tests and jump-starts 6V and 12V batteries. Featuring microprocessor control, digital display, desulfation mode and 150A boost function, it delivers safe, reliable battery maintenance.

- Microprocessor controlled.
- Automatic 6V/12V voltage detection.
- 150A boost mode for starting flat batteries.
- Deep desulfation mode.
- Digital display with voltmeter/tester.
- Float mode charge maintenance.
- Reverse polarity and thermal protection.
- Reverse hook-up protection.
- Integrated carry handle.

£174.95

Stock Code. 13109

230V 150L Stationary Belt-Driven Air Compressor, 2.2kW/3HP

This belt-driven workshop compressor features thermal overload protection, pressure regulation, pressure gauge, on/off pressure switch and a quick Euro coupling outlet for reliable operation.

- Belt-driven operation.
- Quick-release Euro coupling.
- Thermal overload protection.
- Pressure switch, regulator and gauge.

£569.95

Stock Code. 55304

Wheel Nut Socket Set, 1/2" Sq. Dr. (18 Piece)

This durable chrome molybdenum wheel nut socket set features protective sleeves and specialist sockets for removing damaged wheel nuts, bolts, locking nuts and missing chrome caps.

- Protective sleeves prevent rim damage.
- Twist sockets remove damaged nuts and bolts.
- Wheel nut sockets tackle damaged chrome caps.
- Chrome molybdenum steel construction.
- Robust storage case included.

£69.95

Stock Code. 28198

Gravity Oil Drainer, 90L

This air-operated waste oil drainer features a 90L steel tank, adjustable 10L drain pan, safety valve, 1/4" BSP coupler and heavy-duty castors for easy mobility.

- 90L steel tank.
- Adjustable drain pan.
- Safety valve fitted.
- 1/4" BSP coupler.
- Castors and pull-handle for easy manoeuvrability.

£169.95

Stock Code. 13246

12/24V Jump Starter, 3000/1500A

This portable 12V/24V jump starter suits various vehicles and doubles as a 12V power source, featuring LED indicators, safety protection, clamp storage and mains charger.

- Suitable for various 12V/24V vehicles.
- Easy-read LED indicators.
- Two 12V DC sockets.
- Reverse polarity and overload protection.
- Portable with clamp storage.
- Includes 230V mains charger.

£239.95

Stock Code. 29755

12V Lithium Jump Starter with Digital Display, 3000A

This compact 12V lithium jump starter features an LCD display, safety protection, LED flashlight and power bank, capable of starting petrol and up to 10L diesel engines.

- Easy-read LCD display.
- Compact, lightweight design.
- Emergency LED flashlight.
- Built-in power bank.
- USB-C and two USB ports.
- Suitable for petrol and 10L diesel engines.
- Sturdy storage case.

£144.95

Stock Code. 23742

Combined Roller Cabinet and Tool Chest, 19 Drawer, 42"

This versatile steel tool chest and roller cabinet provide secure workshop storage, featuring 19 drawers, smooth ball-bearing sliders, protective liners, durable castors and a powder-coated finish.

- Powder-coated steel construction.
- Smooth ball-bearing drawers and gas-strut lid.
- EVA anti-slip liners.
- Side and pull handles.
- Two integral locks.
- Manoeuvrable castors with brakes.

£799.95

Stock Code. 29357

Draper Expert Coil Spring Compressor Kit (8 Piece)

Suitable for MacPherson strut and conical springs, this versatile compressor features interchangeable jaws, overload protection and yoke protectors, and comes in a durable carrying case.

- Three interchangeable yoke pairs.
- Extension bracket for conical springs.
- Safety yokes prevent spring damage.
- 21mm hex drive with overload pin.
- Sturdy storage case.

£169.95

Stock Code. 60981

Clutch and Brake Bleeding Kit

This manual brake and clutch bleeder enables easy one-person operation, featuring a 3L fluid reservoir, 1L waste bottle, pressure gauge and refill cap wrench.

- Pump-action manual bleeder.
- Ideal for one-person operation.
- 3L hydraulic fluid reservoir.
- 1L waste oil bottle.
- Easy-read pressure gauge.

£59.95

Stock Code. 29358

Draper Expert 3-In-1 Multi-Process Welder Dti, 200A

This compact 3-in-1 MIG/MMA/TIG welder features IGBT inverter technology, gas/gasless operation and a lightweight, portable design for efficient and versatile welding.

- IGBT inverter technology.
- MIG/MMA/TIG welding.
- MIG/TIG torches and electrode holder.
- Synergic wire feed.
- Digital display.

NOCO**NOCO****1000 AMP ULTRASAFE LITHIUM JUMP STARTER**

- Lithium starter: 1,000 Amps for up to 20 jumps per charge.
- Safe & foolproof: Spark-proof with reverse polarity protection.
- 100 lumen LED: 7 modes including SOS & strobe.
- Charges devices on-the-go: Smartphones, tablets, e-watches - up to 4 phone charges.
- For petrol engines up to 6L and diesel up to 3L: Cars, boats, mowers, etc.

**£99.95**

NOCO Part No. GB40

2000 AMP ULTRASAFE LITHIUM JUMP STARTER

- Lithium starter: 2,000 Amps, 40 jumps per charge.
- Safe design: Spark-proof, reverse polarity protection.
- 400 lumen LED: 7 modes, including SOS.
- Charge devices: Up to 6 phone charges.
- Powers 12V devices: Inflators, inverters, etc.
- For petrol engines up to 8L & diesel up to 6L: Cars, SUVs, trucks, boats, RVs.

**£199.95**

NOCO Part No. GB70

PRO 3000 AMP LITHIUM JUMP STARTER

- Powerful lithium starter: 3,000 Amps for up to 80 jumps per charge.
- Safe & foolproof: Spark-proof and reverse polarity protected.
- 500 lumen LED light: 7 modes including SOS & strobe.
- Powers 12V devices: Tyre inflators, inverters, etc.
- Charges devices on-the-go: Smartphones, tablets, e-watches - up to 6 phone charges.
- Suitable for petrol engines up to 9L and diesel up to 7L: Cars, SUVs, trucks, boats, RVs.

**£269.95**

NOCO Part No. GB150

BOOST X 12V 4250 AMP JUMP STARTER

- Extreme 4250 Amp jump starter for powerful engine starts; part of the all-new Extreme Series.
- Fast recharges with USB-C technology - full charge in 2.7 hours or 5 minutes to jump start.
- 60-watt USB-C power bank for charging phones, laptops, and more.
- Enhanced UltraSafe technology with improved thermal efficiency and power management.
- Versatile for all vehicle types up to 10L petrol and 8L diesel engines.

**£339.95**

NOCO Part No. GBX155

5-AMP BATTERY CHARGER, BATTERY MAINTAINER, AND BATTERY DESULFATOR

- GENIUS5: More compact and powerful than G3500.
- Versatile for 6V/12V batteries, including lithium-ion.
- Precision charging with ambient temperature sensing.
- Charges batteries from 1-volt; Force Mode for zero volts.
- Easy setup and automatic operation.
- Restores and extends battery life.
- Compatible with a wide array of vehicles.

**£84.95**

NOCO Part No. GENIUS5

10 AMP BATTERY CHARGER, BATTERY MAINTAINER, AND BATTERY DESULFATOR

- For 6V & 12V lead-acid batteries, including flooded, gel, AGM, maintenance-free and lithium-ion.
- Integrated sensor detects the ambient temperature and alters the charge to eliminate over and under-charging.
- Charges batteries as low as 1 volt. New Force Mode allows manual charging of dead batteries down to 0 volts.
- Detects sulfation and acid stratification and restores performance for stronger starts and extends battery life.

**£124.95**

NOCO Part No. GENIUS10

ASSORTED FUEL & PIPE CONNECTOR KIT

- Straight and 90° connectors for 6-10mm nylon pipe and 7.5-12mm rubber hose.
- Includes male connectors, adaptors, pipe, hose and twin-ear clips.
- Working pressure: 5 bar; max: 7 bar. Temperature: -40°C to 120°C.
- Supplied with a stainless-steel hose cutter.

Heat-mate™

BUILT FOR **BIG SPACES.**

Reduce Heating Costs

Achieve rapid, efficient heating and drying for larger spaces while keeping energy consumption to a minimum. The advanced infrared technology maximises heat output, helping you lower fuel use and save significantly on running costs over time.

Safe and Reliable

Powered by diesel, the Heat-Mate™ features automatic ignition and safety shut-off systems for worry-free operation. It delivers clean, odour-free heat without releasing harmful gases, ensuring a safe and comfortable environment.

NEW ARENA PLUS AC STATION ONE MACHINE – TWO GAS OPTIONS!

£2,149 + Vat
5YR LEASE £11.41 PW

The new Arena Plus AC station is now supplied as a single unit but can be set up to work on either gas. The machine is supplied with either R134a or R1234yf hoses and couplings, the user selects the refrigerant type required at the initial setup stage and the machine is then ready to use on the selected gas. Once programmed, the machine cannot be changed to a different gas.

Key Features:

- Fully Automatic Operation
- Comprehensive Vehicle Database
- 10 KG Refrigerant Cylinder
- 80 L/ Min Vacuum Pump
- 400 G per Min Recovery Pump
- Heater Blanket
- Thermal Printer
- Hybrid Compatible
- 1 Year Warranty

VISIT COOLINGEDGE.CO.UK

Ravaglioli 6CCD Wheel Alignment System

A hugely popular and highly accurate RAV 6 camera CCD four wheel alignment machine offering an excellent opportunity to increase your services and revenue stream.

This unit is rich in features and reliable in operation, offering flexible alignment and can be used on 2 post lifts (with optional drop arm) 4 post lifts and floor or pit.

The unit is PC controlled with 19" TFT screen, colour printer and easy to read graphics, plus a huge vehicle database that enables you to carry out rapid wheel alignment to the manufacturers specification.

The unit uses Bluetooth communication to the wireless heads which recharge on the storage trolley, thus ensuring there are no trailing cables. The 3 point quick clamps cover wheels up to 24" and have no metal to metal contact, ensuring no damage to wheels.

- 6 Camera CCD Technology
- 3 Point Quick Clamps up to 24"
- Use on 2 post, 4 post and scissor lifts
- Wireless Charging
- Low Spoiler Mode

- High Precision Alignment
- Large Vehicle Database
- Remote Control Heads
- Bluetooth Communication
- 12 Months Warranty

Tornado120000 Essential Battery Stabilisation

The T120A ensures a stable and reliable power supply for prolonged diagnostic sessions and ECU programming tasks.

This capability becomes especially crucial when working with luxury vehicles such as BMW and Benz, where the T120A's maximum current of 120A comes into play. Say goodbye to interruptions caused by fluctuating power sources.

£895

Tornado90000 Your Battery's Bodyguard

The Tornado90000 is TOPDON's newest cutting-edge smart charger, made for professional and commercial users. This device is suitable for all types of 12V and 24V lead-acid batteries, with a wide battery capacity range from 5 to 90 amps. The Tornado90000 features a current/voltage edit function and supplies users with the needed protection for batteries through its 9-step smart charging method and 6 charging modes.

£625

V4500 Plus Heavy Load, Light Start

Designed for professional and high-displacement vehicles, the TOPDON V4500 Plus delivers a peak current of 4500A, jump-starting semi-trucks, trailers, off-road vehicles, and boats in seconds. With up to 45 jump-starts on a single charge, it's always ready for action. With features like battery testing and monitoring via our app, super-fast smartphone charging and 500 lumens of light.

£225

V2200Air 2-In-1 Jump Starter & Tyre Inflator

Introducing the V2200Air, the ultimate all-in-one solution for every car owner's emergency needs. This versatile device allows you to jump-start your car, inflate your tyres, charge your devices, and illuminate your surroundings with ease.

Stay prepared for any situation and drive with confidence, knowing the V2200Air has you covered.

£140

V1200Air Compact 2-in-1 Jump Starter

With 1200A peak current, this 2-in-1 jump starter and inflator handles 12V cars, motorcycles, boats, and fleets with engines up to 6.0L gasoline or 4.5L diesel.

It features 5 smart inflation modes for quick and easy tyre inflation. Equipped with 5-layer safety protection and a bright 3-mode LED light, the V1200Air packs essential roadside power into a lightweight, toolbox-friendly design.

£84

V2200Plus 2-in-1 Jump Pack & Battery Tester

The V2200Plus is a 2-in-1 jump pack and battery tester that takes on the unexpected. Offering up to 35 jumps on a full charge, smart clamps to protect against common safety hazards, and features a 300-lumen LED light. A built-in Bluetooth module supports 12V battery tests by pairing an app with Bluetooth. This provides cranking, and battery test reports to let you replace a battery before it dies.

£115

V1500 Power Up & Go

TOPDON's V1500 leads the way as a portable jump starter, delivering 1500 peak amps for instant jump-starts. Quickly and safely jump 12V lead-acid batteries in seconds for cars, boats, motorcycles, and trucks with up to 6.5L Petrol or 4.0L Diesel engines.

The V1500 doubles as a power bank for phones, tablets, and other devices, and can also supply power to 12V DC devices.

£62

BT600 The Next Step for Battery Testing

The BT600 is TOPDON's newest advanced battery tester for 12V vehicles. With a 3.5 inches color screen and a built-in thermal printer, this tool offers the ultimate solution for accurate, fast, and convenient testing. It allows you to easily view the battery's condition and print test reports in real-time. The BT600 adopts a cutting-edge conductivity testing technology and includes reverse polarity protection to prevent improper connections.

£132.50

BT100W Battery Service, Simplified

The BT100W is a battery tool that gives users the efficiency of a plug-and-play tool and the robust data analysis of a high-tech digital tester. The BT100W brings versatility to every garage because it can function as a standalone battery tester and run a variety of tests. Users can tap into the device's app for more advanced functions, enhanced data analysis, and view or save battery test reports in a separate folder.

£49

TOPDON**TOPDON****Phoenix Max**
Get More Done

The Phoenix MAX is TOPDON's latest advanced diagnostic scanner, featuring a 13.3" screen and powerful all-in-one capabilities. It includes a 4-channel oscilloscope, ADAS support, and Topology Mapping for a full system view. With the upgraded MDCL supporting the newest protocols, it enables professionals to handle complex repairs on both automotive and heavy-duty vehicles (with optional add-ons).

£3,145

£3,670 with Scope

SVR LEASE £16.65 PW
£15.48 PW WITH SCOPE**Phoenix Remote**
More Than Ready

The Phoenix Remote is TOPDON's newest model in our generation of intelligent diagnostic tools. With the same built in diagnostic power of the Phoenix Smart and Max, but with the addition of a bespoke remote diagnostic solution on top!

The Phoenix Remote also supports Cloud-Based Programming for over 13 car brands within the tool itself and includes 2 years of free software updates.

£2,835

SVR LEASE £15.05 PW

**Phoenix Smart**
Intelligent Diagnostics

The Phoenix Smart® is a next-gen diagnostic tool from TOPDON, featuring a 10.1" HD touchscreen, quad-core processor, and a long-lasting 12600mAh battery.

It offers one-click code scanning, cloud-based programming for 13+ car brands, 2 years of free updates, and, with the MDCL Pro, delivers advanced diagnostics and broad vehicle coverage.

£2,365

SVR LEASE £12.55 PW

**Phoenix Elite**
Join the AutoTech Elite

The Phoenix Elite is a professional-grade diagnostic scanner that offers OE-level capabilities. With a 10.1 inch LCD screen, 4-Core 2.0 GHz Processor, and Android 10 operating system, this tool provides fast and precise diagnosing capabilities. Its topology feature lets technicians have a clear picture of the automobile's sensor systems and quickly find communication issues or identify trouble codes. The Elite offers cloud-based programming and online coding for 9 makes.

£1,570

SVR LEASE £8.33 PW

**Phoenix XLink**
Link to Speedy Diagnostics

The Phoenix XLink is TOPDON's advanced diagnostic tool, combining powerful hardware with flexible software to boost technician efficiency. It supports cloud-based programming, online coding, and full system diagnostics for vehicles with CAN-FD and DoIP protocols. With 41+ maintenance functions, topology mapping, and bi-directional control, it streamlines workflows and enhances productivity.

£1,307.50

SVR LEASE £6.94 PW

**Phoenix Lite 3**
Compact Pro-Level Scan Tool

The Phoenix Lite 3 is TOPDON's new compact pro-level scan tool. When technicians have jobs outside the shop or jobs need to be resolved fast, the Phoenix Lite 3 is the perfect tool for the job. With a robust array of special functions, online coding, and broad vehicle coverage, this scan tool clears up jobs faster. Now including precision Topology Mapping as standard, CAN-FD communication protocol and the option to add on ADAS coverage to work with the Phoenix Mobile ADAS System.

£1,095

SVR LEASE £5.81 PW

**ArtiDiag Pro**
Professional Diagnostics Within Reach

Featuring 31 maintenance service functions and comprehensive system scanning for over 100 makes and models, the ArtiDiag Pro was made for versatility. The Bi-Directional control feature helps users locate and resolve vehicle problems easier and faster. It supports ECU coding for customers who need to perform coding work in the car. The AutoVIN feature can automatically identify key vehicle information to diagnose and repair vehicles easier.

£415**ArtiDiag800 BT 2**
Lifetime Updates

Enhance your diagnostics with the upgraded TOPDON ArtiDiag800 BT 2, now featuring CAN-FD protocol support and FCA Gateway Access for expanded coverage, including Chrysler, Fiat, and GM models.

The 800BT 2 from TOPDON UK is a special "offline" model which comes with LIFETIME software subscription and without bi-directional controls.

£390**Topscan Pro**
Turn Your Mobile Phone into a Smart Diagnostic Tool

TopScan Pro is a pocket-sized OBD2 tool that connects to your phone, making vehicle diagnostics easy on the go. It reads and clears fault codes and supports 70+ car brands across American, Asian, and European models.

TopScan Pro adds advanced features like a full-system DTC Repair Guide, AutoVIN, bidirectional control, performance testing, and 13 maintenance services, all accessible through its app.

£90

MAHLE TechPRO® Power Protect

£995

TechPRO® Power Protect is an indispensable solution for supplying the necessary power when the engine is off, especially during diagnostics or when the vehicle is on display in showrooms.

Thanks to its ability to deliver 120 A at 25°C (16 A if the ambient temperature is 40°C) continuously and with a certified performance cycle, it is the most efficient solution even for vehicle brands with the most demanding power requirements.

Why TechPRO® Power Protect in workshops

The maintenance of a modern vehicle in the workshop is based on actions that have a significant impact on the battery:

- Locating any faults through a diagnostic phase involving numerous control units, which can sometimes take a long time (several minutes/hours).
- Calibrating ADAS systems using TechPRO® Digital ADAS.
- Reprogramming control units.

Diagnostic work with TechPRO® Power Protect allows you to:

- Follow the manufacturers' recommendations.
- Maintain all the vehicle's electrical systems at a stable voltage, regardless of the vehicle's power consumption being tested.
- Avoid errors due to voltage drops during ADAS system calibration.
- Perform error-free updates to the vehicle's control units.

More information on servicesolutions.mahle.com

MAHLE TechPRO® Power Protect

Operation modes

1. Diagnostic Mode

- Compensates for power demands up to 120 A.
- Adjustable voltage from 12 to 14.8 V in 0.1 V steps according to manufacturer recommendations.
- Automatic warning in case of excessive consumption.

2. Battery Charge Mode

- Automatic lead charge curves in 9 distinct stages.
- Lithium charging curve in 9 stages incorporating TechPRO® Power Protect's 'UVP' (Under Voltage Protection) and "EBS" (Equalising Battery System) technologies.
- Automatic 'SOS Recovery' desulphation.
- Charges 50% faster than a traditional battery charger.
- Real-time display of charging progress.

3. Test Mode

- Measures battery voltage (voltmeter).
- Assesses the condition of a vehicle's starting system (starter + battery) when the engine is started.
- Determines the condition of the vehicle's alternator.

4. Showroom Mode

- Compensates for energy requirements up to 120 A.
- Detachable cables for easy access to the engine compartment.
- Can be used without a battery in the vehicle ('No battery' function).
- Automatic restart in the event of a power failure.
- 'Showroom lock' function to lock the charger and prevent tampering.

Features

Battery Change Function (*)

- Maintains power requirements without risk of losing vehicle memory when changing batteries

Power Supply Function (*)

- Transforms TechPRO® Power Protect into a continuous stabilised power supply (DC).
- Adjustable voltage in 0.1 V steps: 2>16 V
- Adjustable current in 1 A steps: 2>Imax

Start Assist (*)

- Precharges the battery of thermal vehicles and delivers the maximum current of the battery charger during the engine start phase.

(*) activation available on request

Traceability

Charging data is saved in the internal flash memory and sent to a PC via WiFi connection.

Flexible Voltage

The proprietary '**Flexible Voltage**' technology makes the device compatible with all power ranges (85 V <-> 265 V), compensating for drops or instability in the mains supply and thus protecting the vehicle's electronics and the charger. In the event of a brief power failure, the **Auto-Restart** function restores the settings from the moment of the interruption and the user.

Active PFC Correction System

Active power factor correction (PFC) system, which optimises and improves the performance of the device. 2000 W of power with 95% efficiency -> 1900 W transferred to the battery.

MILWAUKEE

M18 FUEL™ 1/2" HIGH TORQUE IMPACT WRENCH HUGE POWER, COMPACT SIZE

- Great power density: the M18 FUEL™ high torque impact wrench delivers 1491 Nm fastening torque and 2034 Nm of nut-busting torque in a compact size of 193 mm, which gives more access in tight spaces
- 2000 RPMs of no load speed to perform your task 35% faster than with the previous gen
- Our battery isolation system provides a secure battery connection and controls vibration transmitted to the pack
- Robust gearcase for more durability
- Tri-LEDs deliver high-definition lighting to increase workspace visibility
- 4-Mode DRIVE CONTROL allows the user to shift into four different speed and torque settings to maximise application versatility
- Mode 4 bolt removal, provides maximum nut-busting torque then shifts to 750 rpm for outstanding control when removing fasteners
- The DNA of our FUEL™ platform redefines the balance of cordless technologies. MILWAUKEE®'s POWERSTATE™ brushless motor, REDLITHIUM™ battery pack and REDLINK PLUS™ electronic intelligence delivering outstanding power, run time and durability
- Flexible battery system: works with all MILWAUKEE® M18™ batteries

M12 FUEL™ 3/8" RATCHET - BARE UNIT MORE TORQUE, HIGHER RPM, COMPACT HEAD SIZE

- With up to 95 Nm of max torque and 400 rpm's, this ratchet offers the perfect combination of power and speed for the most demanding applications
- 19 mm low profile head design allows users better access in tight spaces
- Tool body is ergonomically optimised to fit comfortably in the hand
- Different and interchangeable trigger designs allow the ratchet to be customised to personal preferences
- Maximum control and precision for every application thanks to the variable speed metal trigger
- Industry leading FUEL™ technology combined with a robust design for greater durability
- Premium rubber overmold withstands corrosive materials and provides increased comfort when in use
- The LED light illuminates the work area while the on-board fuel gauge displays remaining run time
- The DNA of our FUEL™ platform redefines the balance of cordless technologies. MILWAUKEE®'s POWERSTATE™ brushless motor, REDLITHIUM™ battery pack and REDLINK PLUS™ electronic intelligence delivering outstanding power, run time and durability
